

DEIS II TO GUIDELINES ATTACHMENT 12

DEIS II EVALUATION PLAN

Basis of evaluation (check one): [] Best Value Trade-Off [] Lowest-Price, Technically Acceptable
See Chapter 3, Paragraph H.3 of the Task Order Guidelines for an explanation of each method.

Non-Cost Factors

Note - ensure that the total of all non-cost factors equals 100%

A. Past Performance: _____ %

List the specific areas of your past performance requirements to be evaluated. These areas should correspond with, and relate to, specific SOW requirements.

- 1. _____
2. _____
3. _____

B. Technical/Management Approach: _____ %

List the specific areas of your technical/management requirements to be evaluated. These areas should relate to specific SOW requirements.

- 1. _____
2. _____
3. _____

C. Other Factors (if applicable): _____ %

List any other evaluation criteria important to you, and the associated weights, below.

- _____

Cost Factor

Percentages are applied to past performance, technical/management approach and any other non-cost factors for which you may want to evaluate contractor proposals. Note that cost is how you make your best value trade-off decision, and as a result, a percentage will not be applied to cost criteria. Indicate whether all non-cost evaluation factors, when combined:

- [] Are significantly more important than [] Approximately equal to [] Significantly less important than
Cost or Price.

In addition, indicate whether or not you want the estimated total dollars available for this requirement to be disclosed to the vendors.

- [] YES - disclose available funds \$ _____ (amount) [] NO - do not disclose available funds
